**Name of Product/Version:** Omeka S v4

**Report Date:** December 2025

**Product Description:** A web-publishing platform for cultural heritage content

**Contact Information:** outreach@omeka.org

**Notes:** This report is for Omeka S v4. It replaces reports for Omeka S v1+, although those reports are still valid for those versions.

For the purposes of this report, "Web" refers to front-end content created using Omeka S, including sites, and "Authoring Tool" refers to the Omeka S admin-side installation interface.

To track progress of ongoing developments or report an accessibility issue, refer to the [Omeka S repository](#) and [respective theme repositories](#) on GitHub.

**Evaluation Methods Used:** Testing is based on general product knowledge and evaluation using TPGi's Colour Contrast Analyser, JAWS, NVDA, VoiceOver, TalkBack, and the following extensions for Chrome: Accessibility Insights for Web, WebAIM's WAVE, and axe DevTools.

## Chapter 3: [Functional Performance Criteria](#) (FPC)

Notes:

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| 302.1 Without Vision | Partially Supports | System is designed to facilitate work with screen readers and assistive technology; functionality may be limited when working with components requiring drag-and-drop interaction. |
| 302.2 With Limited Vision | Partially Supports | System is designed to facilitate work with screen readers and assistive technology; functionality may be limited when working with components requiring drag-and-drop interaction. |
| 302.3 Without Perception of Color | Partially Supports | Color alone is used to distinguish link text. Link text does not have enough of a contrast with surrounding body text and is missing other distinguishing styling, such as underlines, to emphasize the presence of links. |
| 302.4 Without Hearing | Supports | |
| 302.5 With Limited Hearing | Supports | |
| 302.6 Without Speech | Supports | |
| 302.7 With Limited Manipulation | Partially Supports | Certain patterns employ drag-and-drop gestures, which are not currently fully accessible. Remediation is underway. |
| 302.8 With Limited Reach and Strength | Supports | |

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| 302.9 With Limited Language, Cognitive, and Learning Abilities | Partially Supports | The administrative dashboard uses features for cognitive accessibility – consistent location of menu items, consistent layout. However, there is not a simple language option for the interface, and some of the terminology of the systems is specialized. |
